

# Making A Difference To THE WORLD OF COMPOSITES

## New Age Vinyl Ester Resins

Unique & Innovative – Exclusively Customised – Total Quality

The C'POL Range  
From

CREST COMPOSITES, INDIA

**CREST COMPOSITES**, one of India's most respected and leading companies in the arena of composites and polymer resin technology, offers a wide and diverse range of exclusive and high quality solutions for resin applications.

Having an established presence both in the country and the international field, the company, known as innovators, has extensive R&D operations as one of its key areas, **CREST COMPOSITES** is ideally positioned to develop unique tailor made products and solutions to meet users' specific requirements and provide them with higher value.

**CREST COMPOSITES** is a premier manufacturer of Vinyl Ester Resins in India and its products are approved for use by some of the most reputed International consultants, Chemical industries, Chemical equipment fabricators & moulders and FRP component manufacturers using Automated processes.

*CREST COMPOSITES has carved a unique niche for itself in the world of composites with their Vinyl Ester resins - not just by being diligent, but also, by being distinctively different.*

## Unique Innovations of C'POL Vinyl Ester Resins

- Thickenable
- High Shelf Life
- High Chemical Resistant
- High Line Speed
- High Elongation
- Flame Retardant
- Glass Flake Lining
- Readily Infusible
- High Temperature Resistant
- Low Shrinkage
- Low Styrene Emission

For the Chemical industry, **CREST COMPOSITES** offers a comprehensive range of products based on different Epoxy resins to tackle a variety of chemical environments including extreme conditions.

With automation and high temperature application in composites as one of its focus areas, **CREST COMPOSITES** has an impressive array of Vinyl Ester resins for a variety of applications in these areas.

### Process Applications

The C'POL range of resins have been specially developed for:

- Pultrusion
- SMC / BMC
- DMC
- RTM / VARTM
- Filament winding
- Mouldtrusion
- Glass Flake lining
- Casting
- Hand lay up

### End Use Industries

The C'POL range caters to the needs of an immense variety of end user industries.

- Caustic/ Chlor-Alkali
- Metal refining
- Petrochemicals
- Sugar
- Viscose, Paper & Pulp
- Power
- Electrical
- Automobiles & Railways
- Marine & Aeronautical
- Building & Construction
- Telecommunications

\* Detailed product specifications are available on request.

### REGD. OFFICE & WORKS :

Survey No. 609, Village : Shetra, Tal. & Dist. : Kheda - 387560. Gujarat (India).  
Tel : +91-2694-281351 / 281694 ■ Fax : +91-2694-281352

### MARKETING HEAD OFFICE :

E-44, Satellite Apartment, Nr. Kameshwar School, Satellite Rd., Ahmedabad - 380015.  
Tel : +91-79-65121758 ■ Fax : +91-79-66610991  
E-mail : cpol@crestcomposites.com

### REGIONAL REPRESENTATION AT :

■ Chennai ■ Mumbai ■ Kolkata

**CREST COMPOSITES &  
PLASTICS PRIVATE LIMITED**
